Journal of Occupational Accidents, 13 (1990) 326–327
Elsevier

Contents Volume 13

Vol. 13, Nos. 1–2 (September 1990)

Special Issue: Product-Life — From Design to Disposal

Preface
Th. Bernold (Zürich, Switzerland) vii

Introduction

The need for friendly plants
T.A. Kletz (Loughborough, U.K.) 3

From risk analysis to innovation

Bridging engineering gaps and vacuums from design to disposal
T. Ferry (Edmonds, WA, U.S.A.) 17

How people learn to live with risk: prediction and control
A.R. Hale (Delft, The Netherlands) 33

Comparative product-life-cycle confrontation of risks
W.W. Lowrance (New York, NY, U.S.A.) 47

Liability and compensation – the insurance and risk management point of view
O. Giarini (Geneva, Switzerland) 55

The car – a challenge in functional requirements complexity, safety and reliability
H.-H. Braess and G. Reichart (München, F.R.G.) 63

Residual risk and its distribution in the project life cycle
A.S. Patwardhan, R.B. Kulkarni (Oakland, CA, U.S.A.) and J.-F. Nicod (Lausanne, Switzerland) 79

Consequences and visions (*Concluding Talk*)
T.A. Kletz (Loughborough, U.K.) 93

Case studies: Industrial risk management in practice

Process safety assessment of new and existing plants
M.J. Pikaar, J.M. Braithwaite and A.P. Cox (The Hague, The Netherlands) 103

Workplace analysis and design solutions in the Dutch rubber industry
P.H.J.J. Swuste (Delft, The Netherlands) 111

Risk management for water and energy pipelines
R.B. Kulkarni and A.S. Patwardhan (Oakland, CA, U.S.A.) 121

Life cycle management of pharmaceuticals (*Short Communication*)
R. Bruppacher (Basel, Switzerland) 135

Integrated safety
C. Jochum (Frankfurt am Main, F.R.G.) 139

Safe operation of chemical plants. Methodology and practice of risk prevention
R. Gasteiger (Leverkusen, F.R.G.) 145

The safety of the Rapid Transit System in Zürich
P. Zuber (Bern, Switzerland) 157

Quality: how to meet customer demands in a process from design to disposal
L. Johnson (Göteborg, Sweden) 167

Digital switching system EWSD: operation and maintenance using expert system techniques
M. Sevcik (Zürich, Switzerland) 171

Vol. 13, No. 3 (October 1990)

Time-series analysis of industrial accident data
A. Freivalds and A.B. Johnson (University Park, PA, U.S.A.) 179
Comparison of work-related fatality surveillance in the U.S.A. and Australia
N. Stout (Morgantown, WV, U.S.A.), M.S. Frommer and J. Harrison (Sydney, Australia) 195
Safety standards, risk analysis and decision making on prevention measures: implications of some recent European legislation and standards
A.R. Hale (Delft, The Netherlands), M. de Loor (Leiden, The Netherlands), D. van Drimmelen and G. Huppes (Amsterdam, The Netherlands) 213
Personal and environmental factors in coal mining accidents
J. Leigh, H.B. Mulder, G.V. Want, N.P. Farnsworth and G.G. Morgan (Sydney, Australia) 233
Forthcoming Event 251
Translations Available 252

Vol. 13, No. 4 (November 1990)

An indirect cost theory of work accident prevention
B. Brody, Y. Létourneau and A. Pourier (Montréal, Qué., Canada) 255
An international comparison of test methods for determining the slip resistance of shoes
K. Jung and H. Schenk (Sankt Augustin, F.R.G.) 271
Slip resistance versus surface roughness of deck and other underfoot surfaces in ships
R. Grönqvist, J. Roine, E. Korhonen and A. Rahikainen (Vantaa, Finland) 291
Physical ergonomics job design: an accident prevention approach to control upper extremity cumulative trauma disorders in manufacturing industry
A.M. Genaidy (Cincinnati, OH, U.S.A.) 303
Book Review 321
Translations Available 323
Author Index Volume 13 325
